iQPUMP01

Convenient App Control for Jandy® Variable-Speed Pumps

Manage the pump from the palm of your hand... The iQPUMP01 interface gives you convenient control of the pool pump using your smartphone and the iAquaLink® app. So you can control your pump from anywhere, anytime.

iQPUMP01 also allows pool professionals to easily install, set up and program the pump on site or in-between service visits from any iAquaLink enabled mobile device.

- **Anytime, Anywhere Access**
  Whether by the pool or out, on-the-go you can control the pump using the industry's highest-rated pool control app—iAquaLink®.

- **Maximize Energy Savings**
  With the tap of your finger, it's simple to program pumps to run at non-peak energy periods and at minimum speeds needed for cleaning and heating.

- **Simplified Pump Management**
  All critical pump functions are just a tap away...
  - » 24/7 control
  - » Schedules can be enabled or disabled
  - » Editing schedules is as easy as scheduling your calendar
